Addendum 1 to the Request for Proposal

Halverton Borough Council

Reference HBC-2026-031, Addendum 1. Issued 2026-12-04.

This is a fictional document written to test software. Halverton Borough Council is not a real organization.

1 Purpose

This addendum changes one target in the request for proposal and answers two questions that bidders asked through the portal. Under the order of precedence in section 3 of the request for proposal, this addendum prevails over the original text.

2 Change to the service levels

The Contractor shall respond to a Priority 1 incident within 15 minutes, in place of the 30 minutes in the table in section 9.

The resolution targets in that table stay as they are.

Bidders must confirm in the Form of Tender that they have read this addendum.

3 Answers to questions

Question 4 asked whether the Council provides test data for the trial migrations.

The Council will provide an anonymized copy of the Quillbeck data for each trial migration.

Question 7 asked whether the service can be hosted outside the United Kingdom.

The answer is no: the hosting requirement in section 8 stands.
